Interest Rates

April 1, 2023 – June 30, 2023

Below are the updated **2023 second quarter** interest rate options for qualifying PIDA loan applications. These rates are in effect for loan applications received through June 30, 2023.

For **Real Estate Loans** financing eligible land and building costs, borrowers will have the following interest rate options:

For term loans with a regular amortization;

1. Fixed interest rate for the full term of the loan (up to a 15-yr. period), set at the current 10-year treasury yield + 100 basis points. Based on the current 10-year treasury yield, the fixed rate option is 4.50% for the life of the loan.
2. Fixed interest rate for a seven (7) year period set at the 10-year treasury yield. After seven years, the rate will reset to the then-current 10-year treasury yield. Please note, the reset rate is limited to a 200 basis point increase/decrease. The reset rate is then fixed for the duration of the loan. Based on the current 10-year treasury yield, the rate for the initial (7) year period is 3.50%.

For 10-year term loans with a 20-year amortization period;

1. Fixed interest rate for the full term of the loan (10-yr. period). This option is calculated using the 10-year treasury yield +100 basis points. Based on the current 10-year treasury yield, the fixed rate option is 4.50% for the life of the loan.
2. Fixed interest rate for a five (5) year period set at the 10-year treasury yield. After five years, the rate will reset to the then-current 10-year treasury yield. Please note, the reset rate is limited to a 200 basis point increase/decrease. The reset rate is then fixed for the duration of the loan. Based on the current 10-year treasury yield, the rate for the initial (5) year period is 3.50%.

Equipment loans – 4.50% fixed rate for the full term of the loan.

Job Creation/Retention Thresholds: Effective January 5, 2022, the PIDA Board of Directors discussed the policy and approved to increase the **threshold for projects requiring job retention / creation to \$75,000 loaned for every full-time job retained and \$75,000 loaned for every full-time job created.** This updated policy places an equal weight on the lending threshold for jobs retained and jobs created.
